

FROM THE PRINCIPAL

Dear Parents and Community Members,

We are pleased to present you with the redesigned Annual Education Report Card, which provides key information about the 2012-2013 educational progress of Sisters High School. This report will give you information about our demographic information, student achievement and what our school district is doing to improve student learning.

In the 2012-2013 school year, Sisters High School earned an overall school rating of level four out of a possible five. The rating components combine achievement, growth, subgroup growth, graduation and subgroup graduation into a complex formula that compares us to all schools statewide. This means our students

are generally outperforming those at like-schools.

As you progress through the report card you will notice that we are above average or in the top 10% in most areas. We are certainly very proud of our accomplishments. Yet, we continue to strive to improve. This year we will continue work on our vertical alignment as we implement Common Core Standards and student growth goals that are focused on academic standards.

Thank you,

Principal | Joe Hosang

STUDENTS

OVERALL STATE RATING HOW ARE STUDENTS AT THIS SCHOOL PERFORMING COMPARED TO THOSE AT OTHER SCHOOLS?

The overall state rating is intended to summarize this school's particular successes and challenges. It is based on a combination of up to five factors. Three of these factors come from standardized test scores in reading and math: student achievement, student growth, and the growth of underserved subgroups. High schools are also rated on the overall graduation rate for the school and the graduation rates of underserved subgroups. Please be aware that this rating is based mainly on high-stakes testing and accordingly, represents a limited view of student performance. Other aspects of this report card are designed to put this rating in the proper context.

Compared to all schools statewide in 2012-13, this school is rated as Level 4.

- Level 1** = Falls into the bottom 5% of schools
- Level 2** = Falls between 5% and 15% of schools
- Level 3** = Falls between 15% and 44% of schools
- Level 4** = Falls between 44% and 90% of schools
- Level 5** = Falls into the top 10% of schools

Compared to high schools with similar student demographics in 2012-13, this school's rating is about average.

- Below average** = Falls into the bottom third of comparison schools
- About average** = Falls into the middle third of comparison schools
- Above average** = Falls into the top third of comparison schools
